

Full Professor (tenured) – September 2023

Applied microeconomics

Jean Monnet University in Saint-Etienne (France) is recruiting a full professor on a tenured position. The teaching position is at the Saint-Etienne School of Economics and research will be held at GATE Lyon Saint-Etienne, a joint research unit between Jean Monnet University, Lyon 2 University and the CNRS.

1. Teaching – Saint-Etienne School of Economics

The Saint-Etienne School of Economics is a new teaching unit at Jean Monnet University. It gathers all the students (bachelor and master degrees) and teachers in economics at the University. It is intended to provide a cursus fitting in the best European standards, making connections between teaching, professional skills and research. The Saint-Etienne School of Economics seeks to welcome international students. The successful applicant will have to contribute to teaching and supervision at all levels, especially in the area of applied microeconomics and econometrics. The teaching load can be fully in English. Besides his/her teaching load, the recruited professor will participate in the development of the School of Economics. He/She is particularly expected to develop teaching partnerships at an international level (e.g. Erasmus mundus program) and to undertake program supervision at the master level.

2. Research – GATE Lyon Saint-Etienne (UMR CNRS 5824)

The GATE Lyon Saint-Etienne is a joint research unit between Jean Monnet University, Lyon 2 University and the CNRS. It is member of the University of Lyon and is among the best-ranked French research units in economics. It is ranked 5th in France, according to the Tilburg University Economics Ranking (<https://econtop.uvt.nl>). The GATE Lyon Saint-Etienne gathers approximatively a hundred members around four main research axes: game theory, behavioural economics, macroeconomics & finance and applied microeconomics (theoretical or empirical). The professor position is aimed at joining the applied microeconomics axis. A research program creating potential collaborations in the following fields will be particularly appreciated although non-binding: economics of innovation, regional and urban economics, environmental economics, development economics public economics and international economics. Applicants should demonstrate scientific qualifications documented by publications in highly ranked international journals and a successful record of attracting external research funding, research supervision and leadership experience.

3. The position

The position is a tenured full professorship. The salary is negotiable and attractive (classification according to the French Ministry of Research and Higher Education: <https://www.emploitheque.org/grille-indiciaire-etat-Professeurs-des-universites-33>). The ranking will be individually negotiated under consideration of the previous career development and the current income situation.

A “start-up package” can be negotiated, potentially including:

- a starting fund of 60k€
- a teaching load waiver (about 1/3 of service, potentially over several years).
- a PhD scholarship to recruit a PhD student

Courses in French will be offered if needed.

4. The recruitment procedure

The recruitment procedure will take place during winter and spring 2023, following the French academic calendar:

- Application submission via the GALAXIE application: from Thursday, February 23, 10am (Paris time) to Thursday, March 30, 4pm (Paris time)
- Candidate interviews: between April 25 and May 19 (precise date to come)
- Publication of candidate rankings and entry of candidates' wishes via the GALAXIE application: from Thursday, June 8, 10:00 am (Paris time) to Thursday, June 15, 4:00 pm (Paris time)
- Results publication on the GALAXIE application: Monday, June 19, 12:00 (Paris time)

The position will start in September 2023.

Potential candidates are invited to join either Julien Salanié (GATE deputy-director in Saint-Etienne: julien.salanie@univ-st-etienne.fr) or Corinne Autant-Bernard (director of Saint-Etienne School of Economics: corinne.autant@univ-st-etienne.fr) for further information.

Potential candidates will be given the opportunity to present their research at the GATE (either in person or by videoconference) and assistance to pursue the French process of application.
