Ad text:
Saint-Etienne School of Economics is opening a post-doctoral scholar position funded by Saint-Etienne Metropolis (three years financing). Research conducted through this post-doctoral position will advance the understanding of urban and innovation dynamics and provide evidence to inform the development of effective policy interventions. The ideal candidate will have a strong interest in quantitative research designed to drive public decision-making.

The position offers continued training in preparation for an independent research career. The Fellow will be encouraged to develop collaborative relationships with academic staff/faculty and visitors in the Saint-Etienne School of Economics and GATE (CNRS) research unit.

We encourage candidates to submit their application as soon as possible, as applications will be reviewed on an ongoing basis. The position will remain open until filled.

About us:

The **Saint-Etienne School of Economics at Jean Monnet University** is a newly created school aiming to train decision-makers capable of addressing current and future economic challenges. It offers courses in the economic sciences informed by cutting-edge international research in fields such as artificial intelligence, data, and in the design and evaluation of public policies and local economic development. The courses are taught by lecturers and researchers in economics, mathematics, computer science, management, law and political science. They are mostly from the GATE research unit, one of France's top-ranking economics research centres.

Further information about Saint-Etienne School of Economics can be found on our webpage: https://se2.univ-st-etienne.fr/en/index.html and on the GATE research unit website: https://www.gate.cnrs.fr/?lang=en

About the position:

• **Full time** *employment for the period of one year contract renewable twice*. **The starting date is in the fall of 2022 or early 2023.**

• The position does not include teaching obligations, however, interaction with graduate students involved in data analysis projects are expected.

Required qualifications:

• Candidates are expected to hold a Ph.D. in economics, or be close to finishing their Ph.D., and have a strong background in applied econometrics.

• Knowledge of French is a plus but not mandatory

To apply:

Send your application to se2@univ-st-etienne.fr with the subject "Postdoc2022." Your application should consist of a single zip file that includes the following:

1. A motivation letter, including the names and contact information of three references (one of whom should be the PhD supervisor)
2. A detailed curriculum vitae
3. A detailed list of publications
4. Copies of the relevant diploma(s)
5. The job market paper and any paper relevant to the topic of the research project

For further information, please contact Prof. Corinne Autant-Bernard: autant@univ-st-etienne.fr
